# Energy Policy

## Overview

### Goals

We are committed to buying and using energy in the most cost-effective, efficient and environmentally responsible way possible.

To achieve this, we will:

Improve energy efficiency continuously by implementing effective energy management solutions to support all operations and customer satisfaction while providing a safe and comfortable work environment.

### Objectives

Measuring & monitor our ongoing energy usage comparing with previous historic usage taking into consideration climate change and weather seasonal conditions.

Management to investigate energy saving technology.

### Applicability

This policy shall apply to all areas of the business and its employees.
